PRESS RELEASE

DATE: April 2, 2010

To Whom it May Concern:

Effective April 2nd, 2010, Teledyne Analytical Instruments (TAI) shall no longer accept orders for oxygen sensors intended for use in the commercial, underwater closed-circuit rebreather (CCR) and semi-closed rebreather (SCR) markets.

TAI shall continue to focus on the oxygen sensing opportunities within its core industrial, medical, automotive and above-water, diving-cylinder verification markets.

Any questions or concerns with regard to this decision should be sent to ask_tai@teledyne.com.
